

DR-as-a-Service

Beat Any Disaster With Carbon60's Disaster Recovery Cloud Solution

The Carbon60 Disaster Recovery Cloud Solution integrates our proven cloud infrastructure and Veeam Cloud Connect into a secure and compliant solution customized to fit your needs.

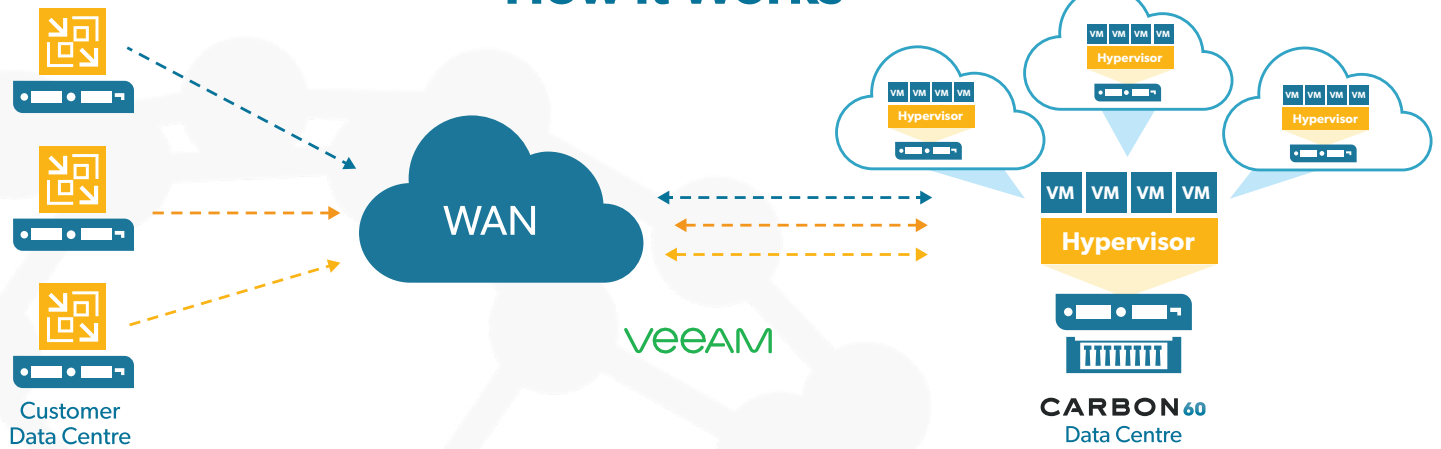

From planning to testing to regular maintenance and monitoring, we help manage your disaster recovery solution, so you can rest assured that your data is protected and critical applications just work in case of a disaster, big or small.

We are a Veeam Silver CSP Partner providing cloud backup and DR solutions on our reliable and scalable cloud infrastructure platform.

MANAGED HYBRID CLOUD SOLUTIONS

How it Works

Recover within Minutes

Continuous replication of critical applications, infrastructure, data and systems to the Carbon60 cloud, so you can recover within minutes of an IT outage.

Monitoring & Recovery

Proactive event-driven recovery and testing services. We test the systems and manage the disaster recovery, so you don't have to.

Enterprise-Class Cloud

Our cloud infrastructure is scalable, reliable and proactively monitored for availability, located in top-tier data centres in Canada.

Meet Your RTO/RPO Objectives

Improve Recovery Time Objectives (RTOs) and Recovery Point Objectives (RPOs) for both planned and unplanned outages and maximize business availability.

End-to-End Encryption

All data is encrypted at the source, in-flight and at rest, without impacting the data reduction ratios of built in compression and WAN acceleration.

Secure & Compliant

Security by design with SOC2 compliance, top-tier data centres, encryption and several cloud platform security measures.

ABOUT CARBON60

Carbon60 is a managed cloud services provider for mid-market and enterprise customers. The company offers private, public and hybrid cloud services and a full suite of managed services including monitoring, performance optimization and testing, security, disaster recovery, backup and CDN services. Carbon60 is also the leading provider of application hosting for content management systems in Canada.
