Managed Endpoint Protection

Endpoint protection is often used to describe security solutions that address endpoint security issues, securing and protecting endpoints against zero-day exploits, attacks, and inadvertent data leakage resulting from human error.

Today's endpoints are located across vast physical and digital landscapes, making conventional security solutions obsolete. Get advanced endpoint prevention, detection and response with Carbon60's endpoint protections solution, powered by CrowdStrike.

Managed Antivirus

Protect against both malware and malware-free attacks; third-party tested and certified, allowing organizations to confidently replace their existing legacy AV.

Endpoint Detection and Response

Delivers continuous and comprehensive endpoint visibility across detection, response and forensics, so nothing is missed and potential breaches can be stopped.

IT Hygiene

Identifies unauthorized systems and applications, and alerts in real time to the use of privileged credentials in your environment, enabling faster remediation.

Threat Intelligence

Integrated threat intelligence into endpoint protection, automating incident investigations and speeding breach response.

USB Device

Enables safe and accountable USB device usage effortless visibility and precise granular control of USB device utilization.

Threat Hunting Service

Identifies attacks and stops breaches 24/7 with an elite team of experts who proactively hunt, investigate, and advise on threat activity in your environment.

Host Firewall Control

Provides simple, centralized firewall management, making it easy to manage and enforce host firewall policies.

Defense-in-depth Approach

Using leading foundational and modern techniques, Intercept X keeps malware at bay, integrating the industry's top-rated malware detection, exploit, and endpoint detection and response.

Powered by: **CROWDSTRIKE**

Carbon60's endpoint protection, powered by CrowdStrike, protects your assets 24x7 no matter where the data resides. An agent is installed that combines threat hunting technology with next-generation antivirus and endpoint detection to eliminate blind spots your traditional AV software misses.

For the most elusive threats, a team of Carbon60 experts investigate and nullify compromised endpoints on your behalf, preventing lateral spread. Supporting the full incident response lifecycle, we work alongside your team to determine the root cause and corrective actions, ensuring your environment is hardened against future business disruption.

What does Endpoint Protection Detect?

Malware	Known Attacks	Suspicious Activity	Advanced Persistant Threats	Fileless Attacks	Lateral Movement

	Silver	Gold	Carbon60
24x7 continuous monitoring	✓	✓	✓
Configured default policies	✓	✓	✓
Managed and automated agent updates	✓	✓	✓
Prevention of known attacks	✓	✓	✓
Alerting of confirmed threats and suspicious behavior	✓	✓	✓
Forensic analysis to confirm threats and eliminate false positives		✓	✓
Custom Policies (USB Control, application rules, patch management)		✓	✓
Continuous management, tuning, and refinement of platform		✓	✓
Named customer account with Crowd strike		✓	✓
Root Cause Determination (may require professional services)	✓	✓	✓
Customer portal and dashboard			✓
Weekly environment review and report			✓
Dedicated specialist investigating alerts and logs			✓

The Carbon60 Advantage

Carbon60's success lies in our commitment to deliver reliable and flexible managed cloud solutions with the highest-level of accountability and service quality.

Managed Cloud Experts

Carbon60 embraces accountability for all five layers of the hosting solution stack to deliver end-to-end hosting managed clouds for business-critical workloads that demand the highest levels of reliability, performance and security.

Secure & Compliant by Design

Carbon60 builds and manages high visibility solutions that must adhere to stringent controls to help mitigate risks that your business faces every day.

End-to-End Service Model

We leverage the optimal mix of cloud models tailored to your requirements from our managed cloud experts to be highly accountable to the success of your applications and ultimately your business.

White-Glove Support

Dedicated support and DevOps techs are available 24x7x365 to ensure your applications and workloads are always available and performant.

> "MediResource has grown and matured along with Carbon60 as we implement security and change control policies that keep our data safe and achieve high availability for our applications."
